Critical music is a UK drum n bass label releasing some of the freshest breaks and beats around. Created and nurtured by Kasra, the imprint has gone from strength to strength over the past 5 years and with a white hot release schedule for 2008 continues to move at breakneck speed.

This year we have released tracks by Spectrasoul, Survival and Bungle plus the first ever Critical EP - Critical Sound Volume I - featuring the awesome talents of Break, Loxy, Lomax & Kasra and hot new signing Inside Info

Last year All Sounds Electric Volume I reset the benchmark for quality drum and bass projects as one of the strongest bespoke compilation albums to hit the shelves in a long while.- Slamming tracks from the likes of Calibre, Break, Silent Witness (among others) all housed in beautiful packaging meant that admiration from both critics and fans alike made the album one of the scenes success stories.

So to keep the momentum rolling we are proud to give you the inside scoop on the second instalment. Once again the vinyl package will be 3 x 10" available in a lovingly created box and the second format will be a double CD featuring the 6 tracks from the vinyl package along with 14 exclusive tracks from some of the scene's established and rising stars.
