Critical Recordings are proud to present the first in our **Critical Reformat** series. On remix duties for our maiden voyage we have the mighty **DJ Friction** alongside US upstart **Vector Burn**.

On his remix of **Vector Burns "Not Promised Tomorrow"** DJ Friction [Renegade Hardware/TOV/Charge/Transparent] takes the core elements of the original to another level using Vector`s techno vibes to amazing effect to create a rousing roller.

For the flip we see **Dphei`s "Five Faces"** mutated into a tune like no other. Using haunting vocals and heavy bass laid out over hard beats and an infectious techno line Vector Burn once again creates another floor stormer.

These tracks have been give praise and rotation from the likes of DJ Friction, Stakka & Skynet, Cause For Concern and Dylan.

2002 situation critical.....
