**RELEASE: 24 th NOVEMBER 2003**

-----  
For this release Critical are very proud to introduce Calibre to the fold.

In his relatively short career Calibre has so far provided us with some of the best tracks to grace the most discerning of dance floors and home sound systems. With releases on labels as notable as Creative Source, Soulr , 31, Renegade and his very own Signature imprint he is an artist that is never far from everyone's thoughts when it comes to quality drum and bass.

The two tracks he has delivered for Critical combine all that is best about his style; a true sense of depth and feeling whilst still retaining those all important dance floor sensibilities.

Rockafella is a departure from the Calibre sound most are used to, ruff breaks and deep bass run underneath abstract samples to keep any floor moving; a percussive workout. Barca is a lesson in breakbeat soul. A hypnotic roller combining sultry vocals and a distinct bassline groove.

DJ support from Goldie, Fabio, DJ Marky, Storm, High Contrast, Marcus Intalex, Flight, Friction and more.
