

ARTIST: SKC & BRATWA
LABEL: CRITICAL
CAT NO: CRIT020
SIDE A: SKC & BRATWA -PAIN
SIDE AA: SKC-FORGET
RELEASE: DECEMBER 2005

After the wonderous Chris Su single we released a few moons ago it's about time we welcomed back some wild Hungarians to the label. For side A SKC teams up with compatriate Bratwa with the deep roller, Pain. After releases on Soulr and Hospital they continue to roll out the wonderousness, check it.

Flip the disc (ahem) for something a little more bouncy. Skc goes it alone on the dancefloor funk tech of Forget, tight beats, twangy bass...you get the picture.

Support from all corners of the dnb DJ globe, from Flight to Logistics from Friction to Cyantific.

Keep those eyes open for forthcoming circular music plates of joy from Silent Witness, Breakage and Bungle.
